danzaedanzaweb

The editorial platform has added further scope to its offering with a Facebook page, an Instagram profile and a YouTube channel, all constantly renewed with news, fresh insights, exclusive content and live posts from some of the biggest sector events.

The three social channels – all boasting a growing base of followers – are tools that many Theatres, Dance Companies, Dance Schools and Organizations are choosing to use to offer appealing and dynamic content to their existing audience and new users.

Completing the offering is an email marketing service that targets a national and international user base, reaching sector operators, schools and dance enthusiasts.
